Education for the profession

This profession requires a theatre education.

You need an unusual view of the world and the phenomenon occurring in it.

To become famous generator, you
need to be able to dream and

be
ch
's

This is a very demanding profession
that requires a lot of effort, time and
money

Why have I chosen this profession?

A wise man once said: “Choose an activity that you love and you will not ever work”.

I like to think and to dream

I love coming up with new and different ways of constantly flying around in my head.

Nowadays there are a lot of directors and producers, but not all of them are worthy of respect.

The most famous directors are James Cameron, Steven Spielberg, Nikita Mikhalkov, Sergei Bondarchuk and many others.

The background of the slide is a dramatic, cinematic scene of a stormy sea. In the foreground, a small, dark boat is visible, struggling against the turbulent, dark blue and green waves. The sky is filled with dark, swirling clouds, and a bright, golden light source, possibly the sun or moon, is breaking through the clouds on the right side, creating a strong contrast and illuminating the scene. The overall mood is one of intense action and struggle.

It is difficult to become a famous director, but I will try, and I hope I can do it!!!

Thank you for your attention!
